Sheila Lillie

Last Year's Miss DeKalb County, Connie Rapp, crowns Sheila Lillie as the new Miss DeKalb County during the Free Fall Fair.

The Miss Garrett pageant was held during the annual Garrett Days Celebration. Ten girls from the senior class of GHS competed for the title. They were judged on the basis of beauty, poise, and talent. The pageant included a swimsuit competition, an evening gown competition, and a talent presentation. The girls were assigned points for each event and the winner was judged by the highest total points.

The 1972 Miss Garrett is Sheila Lillie. Her talent was a ventriloquist act and a musical number. First runner-up Toni Snook sang a medley of songs. Both girls went on to compete in the Miss DeKalb County pageant at the Free Fall Fair, where Sheila was crowned Miss DeKalb County and Toni was second runner-up.

STUDIES

Cadet Teachers Apply Teaching Skills

In Cadet Teaching the students that take part are very interested in the welfare of the children they teach. They want to learn how to help them and learn the basic principles in teaching. This comes in very handy for the other teachers and gives them a chance to teach these students how to handle the children.

Both Latin and Spanish students learn how to do the translations of the languages. The Latin students doing translations of old Roman stories and the Spanish students doing them of modern stories. The advanced students usually concentrate on the history of the language.

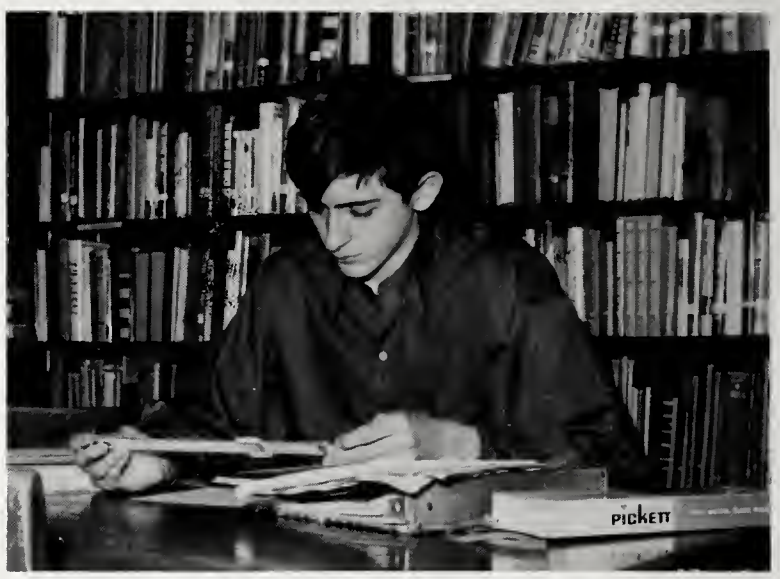
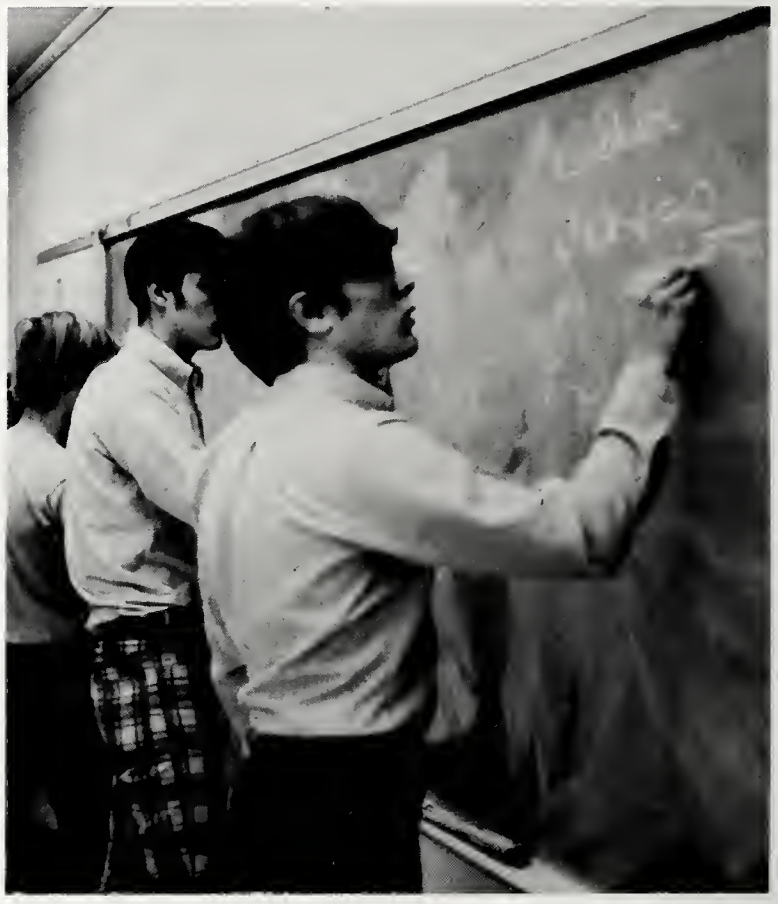
Students Learn Principles of Mathematics

Freshmen study in Mr. Neal's Algebra I class.



Tom Selke studies hard on his assignment in senior math.

A new teacher, Mr. Neal, took over the algebra and senior math classes this year. He introduced the theories of sets and minor equations to the algebra classes and trig. and calculus to the advanced class. The geometry classes, taught by Mr. Capin, worked hard on proving theorems and projects. They did projects showing original geometric constructions. Advanced math classes studied the beginning principles of calculus.



Dave Derickson and Dave Lash work problems on the board in Algebra II.

Advanced Algebra students listen as Mr. Capin explains a solution.

Science Students Learn Principles, Laws

Biology I students work diligently in Mr. Miller's class.

Who says frogs are interesting? Mr. Miller does, that's who. First year students learn the fundamentals of biology and do dissections. Second year is more an applied science class—applying facts to the things around you. The chemistry students concentrated on formulas and equations. They also do experiments and projects using these formulas as guides.

Junior Becky Weller takes part in an experiment in chemistry class.

Seniors Randy Michael and Todd Hamm demonstrate principles of physics.

Denny Smith helps in Mr. Miller's biology I class.

Kay Nolan, Linda Marti, and Larry Asher pick just the right colors.

Whether it's drawing, painting, or sculpting, the art students are always enthusiastic about their art projects. The painting classes did still life paintings at the beginning of the year and then did their own paintings of pictures or objects they liked best. The first year drawing classes learned perspective and the basic color schemes. Mr. Hutton had a new class this year—Lettering and postering. The students learned how to draw different kinds of letters and how to space them. They did a project in which they used any kind of lettering they wanted and had to use their initials and the year they graduate for a poster.

Art Classes Provide Challenge to Creativity

Sharon King works on the still life painting in class.

Marilyn Mavity puts the finishing touches on her painting.

Both Boys and Girls Learn Homemaking Arts

Creative Stitchery brought out new talents in many of the girls.

Home Ec classes interested many more people than last year. The Junior High alternated cooking and sewing — each for a semester and learned the basic skills in homemaking and health. The older girls did various cooking and sewing projects and some participated in a P.T.O. fashion show. The newest thing in school was the Creative Stitchery and Chef's Arts classes. The Chef's Arts class being open only to boys. The handmade clothing from Stitchery class was quite unique. Who knows — boys make good cooks, too.

(FRONT) Becky Shafer, Debbie Runion, and Marilyn Mavity give the sewing machines a whirl.

Maybe those cookies don't look so bad after all, guys.

Kathy Gibson and Kay Christlieb try their hand at cooking.

Since the students have had better equipment in the past few years, they have learned many new skills. The advanced coed classes went bowling, golfing, and played tennis during the first semester and helped the grade school children during the second semester. The Freshman and Sophomore girls and boys participated in gymnastics, volleyball, and basketball. They alternated bowling and square dancing during the first semester. The gym classes are designed to help the students co-ordinate their physical self during the two years the physical education classes are required.

The advanced gym class students have fun playing volleyball during class.

History, Social Studies Teach Value of Mankind

Larry Asher points to one of the many decorations in Mr. Whitehead's room.

Bill Pfefferkorn, Jeff Stroman, and Garry LaLone take part in Mr. Finchum's class.

Students taking history this year saw some new faces. Sophomores who took World History had a student teacher for six weeks, Mr. Wayne Creech. Filling in Mr. Parks' place in U.S. History was Mr. Stan Whitehead. Miss Lotz and Mr. Smith battled the junior high again this year. Senior students studied civics and government under Mr. Finchum. The U.S. History classes went on a field trip to the Gala theater to see GONE WITH THE WIND while they were studying the Civil War.

Mr. Wainscott takes "stock" of a history student's project.

Debbie Teixara uses an adding machine in her Business Machines class.

The business department has made many advancements in the past few years. The Business Lab gives those students a chance to train for a position in the Business world. They learn to use some of the best and most modern equipment such as electric typewriters, dictaphones, and copy machines. Business Lab creates an "on the job" situation in which the students would actually be clocking in and out just as they would in a regular job. This gives them a chance to get to know the ways of a real job before actually being confronted with it. It seems that there is always someone whacking away at the keys making use of the facilities. The teachers even make use of the business students by having them stencil, type, and run-off copies of tests or worksheets. They also run-off tickets and programs for different clubs.

G-men Finish Season 17-3; Tie for 2nd Place in NEIC

The Railroaders had a fantastic season in 1971-72 Basketball year. They finished their regular season with a 17-3 record. Then they went on to the Holiday Tourney where lost to East Noble. Finishing up they tied for second in the NEIC. The mighty team went on to the sectional beating Angola, Eastside, and our arch-rival, DeKalb to grab the crown again this year. The Railroaders went further still to take the Regional again this year beating Snider and East Noble. Their basketball season — but not their glory — came to an end by losing to Madison Heights in the Semi-State Tourney.

We are very proud of two Senior boys who won honors this year. Jeff Stroman was a unanimous choice for the all conference team and was on the state team, too. Tom Miller also won an honorable mention for the team.

Graduation 1972: We've Only Just Begun

Lora Freeman joyfully receives her diploma and congratulations from Superintendent Mr. Puff.

SENIOR SONG

We've only just begun to live
So much of life ahead
A prayer for luck and we're on our way
And yes we've just begun
Crossing horizons that are new to us
Watching the signs along the way
Thinking it over just for each of us
Working together day by day
Together
And when the challenge comes, we'll stand
Facing the times at hand
We'll find a place where there's room to grow
And yes we've just begun

At last! Seniors wait to receive their diplomas.

Diane Diederich is presented with a rose from the senior sponsors in honor of her graduation.

Seniors rehearse for Commencement.

End of School: Time Out for Fun

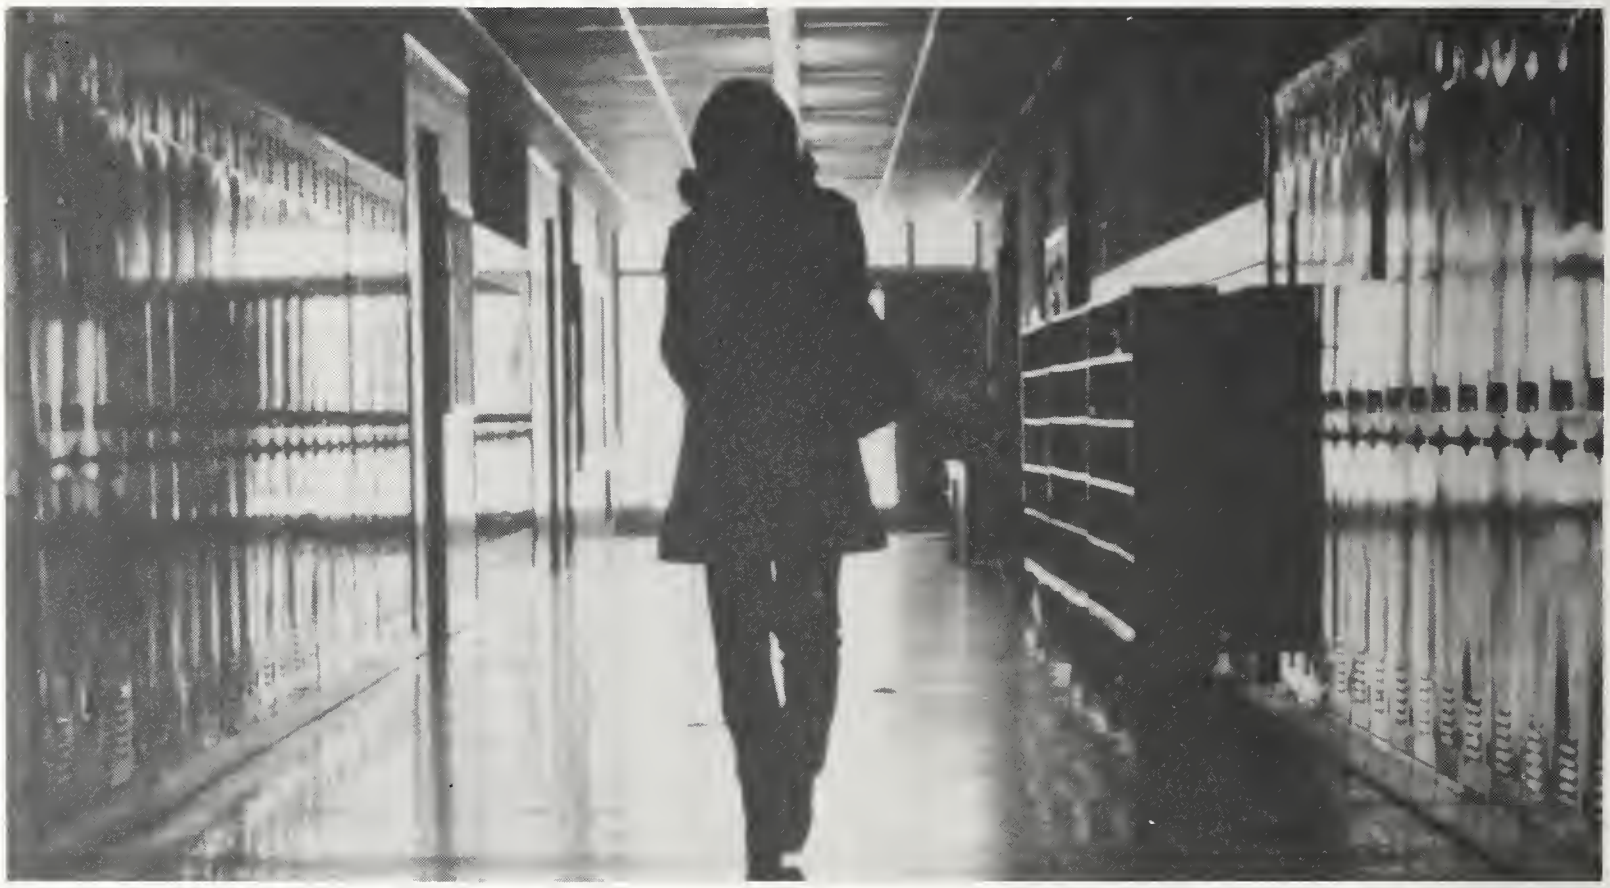
The Road goes ever on and on
Down from the door where it began.
Now far ahead the Road has gone,
And I must follow, if I can
Pursuing it with eager feet,
Until it joins some larger way,
Where many paths and errands meet.
And whither then? I cannot say.

J.R. Tolkien



The staff of the 1972 Aeolian would like to express its gratitude to Mr. Steve Marsh for all the assistance he gave us during the year. He was there whenever we needed him or his trusty camera, and without him this yearbook could not have been completed. We would also like to thank Mr. Jim Arthur, our yearbook representative, for all the help and encouragement he gave us throughout the year.
